ACADEMIC INTERESTS	Machine Learning (ML) for education, music information retrieval, empirical deep learning, computational social science	
EDUCATION BACKGROUND	<i>Ph.D. in Computer Science</i> <a href="#">University of California, San Diego</a> , San Diego, CA <ul style="list-style-type: none"><li>Advised by Prof. Julian McAuley</li></ul> <i>B.S. in Statistics &amp; Machine Learning</i> <a href="#">Carnegie Mellon University</a> , Pittsburgh, PA <ul style="list-style-type: none"><li>Minor in Sonic Arts (music technology)</li><li>3.93/4.0 GPA</li><li><i>Selected Coursework:</i><ul style="list-style-type: none"><li>Probabilistic Graphical Models, Convex Optimization, Algorithms &amp; Data Structures, ML w/Large Datasets, Real Analysis, Numerical Linear Algebra, Probability &amp; Statistics, Statistical Computing, Linear Algebra, Multimedia Signal Processing, Philosophy of ML</li></ul></li></ul>	Fall 2022 - Present  August 2018 - May 2022
RESEARCH EXPERIENCE	<i>Research Assistant</i> <a href="#">ACMI Lab</a> , Carnegie Mellon University, Pittsburgh, PA <ul style="list-style-type: none"><li>Designed a large-scale verification study to assess whether theoretically posed methods for explaining the generalization gap between Stochastic Gradient Descent (SGD) and full-batch methods are robust across modern benchmarks and model types.</li><li>Maintained large codebase in Pytorch to run suite of experiments with different deep architectures and image recognition tasks</li><li>Prepared paper for submission to <b>NeurIPS 2022</b></li></ul> <i>Research Assistant</i> <a href="#">Laboratory for Social Minds</a> , Carnegie Mellon University, Pittsburgh, PA <ul style="list-style-type: none"><li>Implemented Latent Dirichlet Allocation (LDA) to investigate ideological network evolution on the fringe web forums /pol/ (4chan) and The Red Pill (Reddit)</li><li>Designed a Bayesian autoregressive model to analyze addiction effects on social media websites, to be submitted to <b>Nature Human Behavior</b></li><li>Explored how structural differences in online communities may influence the cognitive entropy of a given website's topic distribution, to be submitted to <b>Entropy</b></li></ul> <i>Undergraduate Researcher</i> <a href="#">Dietrich College</a> , Carnegie Mellon University, Pittsburgh, PA <ul style="list-style-type: none"><li>Constructed filtering algorithm to parse sparse text documents for specific topic occurrences</li></ul>	Spring 2021 - Present  Summer 2020 - Present  Summer 2020 - Spring 2021

- Modified existing sentiment analysis implementation to account for valence-shifters in congressional speeches
- Implemented multiple behavioral game theoretic models in matlab to simulate strategic choice patterns in asymmetric two-player games

## WORK EXPERIENCE

*AI/ML Intern*

Summer 2020 - Spring 2021

[Unisys Corporation](#), Blue Bell, PA

- Designed python implementation of categorical distance metrics to interface with scikit-learn clustering algorithms
- Deployed time-series models (ARIMA, LSTM, Facebook Prophet) to predict computer resource utilization
- Developed model retraining infrastructure to automatically track distribution shift in time-series models

*Front Ensemble Coordinator*

Fall 2019 - Summer 2020

[Gateway Senior High School](#), Monroeville, PA

- Led rehearsals and designed pedagogical structure for the front ensemble (non-mobile percussion) in Gateway's marching band and indoor percussion programs, working with a group of 10-15 students from ages 14-18.

*Studio Intern*

Summer 2019

[Joy Records](#), Tel Aviv, Israel

- Analyzed commercial streaming data to construct customized playlists for clients
- Assisted in website development for Hebrew-to-English translations

*Percussion Arranger*

Fall 2018 - Spring 2019

[Tomball High School Indoor Percussion](#), Tomball, TX

- Arranged musical production for large percussion ensemble in order to compete in the Winter Guard International (WGI) national circuit

## TEACHING EXPERIENCE

*Teaching Assistant*

Carnegie Mellon University, Pittsburgh, PA

- [10-301/601: Introduction to Machine Learning](#) *Fall 2021 - Present*
  - Spearheaded team maintaining autograder implementation for coding assignments
  - Led recitation and designed homework questions for class of 500+ students
  - Topics Covered: Decision Trees, Linear & Logistic Regression, Regularization, Dense and Convolutional Neural Networks, PAC Learning, Generative Models, MAP Estimation, Bayesian Networks, Hidden Markov Models, Markov Decision Processes, Clustering, Ensemble Methods
- [85-340: Research Methods for Social Psychology](#) *Fall 2021*
  - Fully created and taught course module introducing R for psychology students, including computer science fundamentals and applications for experiment design and data analysis
  - Topics Covered: Basic types, functions, vectorized programming, workflow in dplyr, basic statistical analysis, one-way and two-way ANOVA
- [36-225: Introduction to Probability Theory](#) *Summer 2021*

	<ul style="list-style-type: none"> <li>– Topics Covered: Basic probability, random variables, univariate/multivariate probability distributions, moment-generating functions, central limit theorem</li> </ul>	
	<ul style="list-style-type: none"> <li>• 36-226: <i>Introduction to Statistical Inference</i> <span style="float: right;">Spring 2021</span></li> <li>– Topics Covered: Maximum likelihood estimation, method of moments, large &amp; small sample hypothesis testing, properties of point estimators, confidence intervals, order statistics, Type I &amp; Type II errors, ANOVA</li> <li>• 88-300: <i>Programming for Social Scientists</i> <span style="float: right;">Summer 2020 - Spring 2021</span></li> <li>– Topics Covered: Basic data analysis, workflow in dplyr, basic text analysis, linear regression</li> </ul>	
<b>PUBLIC WORKS</b>	<p><i>Poster Presentations</i></p> <ul style="list-style-type: none"> <li>• <b>Zachary Novack</b>, Eden Hu, and Mason Lin, <i>Tracking Political Sentiment on Cold War China in Congressional Speeches</i>, Carnegie Mellon University Statistics and Data Science Research Showcase, May 2021</li> </ul> <p><i>Blog Posts</i></p> <ul style="list-style-type: none"> <li>• <b>Zachary Novack</b>, <i>Armchair Statistics: Benford's Law and other Misconceptions in the Age of Data</i>, Carnegie Mellon University Triple Helix, April 2021</li> </ul>	
<b>PROJECTS</b>	<p><i>RoboPierre</i> <span style="float: right;">Spring 2020</span></p> <p>Adaptive Impressionist Music via Generative Modeling</p> <ul style="list-style-type: none"> <li>• Developed interactive web app to randomly generate polyphonic music trained on impressionistic composers</li> <li>• Implemented using Google Magenta's Polyphony RNN and custom stochastic voice leading algorithm</li> </ul> <p><i>ThereMyn</i> <span style="float: right;">Spring 2019</span></p> <p>Motion-Controlled Monophonic Synthesizer</p> <ul style="list-style-type: none"> <li>• Used infrared distance monitor to drive audio signal creation</li> <li>• Created front-end GUI to translate audio signals into a usable motion-controlled synthesizer</li> </ul>	
<b>ACCOLADES</b>	<p><i>Honors Programs</i></p> <ul style="list-style-type: none"> <li>• <i>Phi Beta Kappa</i>, October 2021 - Present</li> <li>• <i>Andrew Carnegie Society Scholar</i>, September 2021 - Present</li> <li>• <i>Quantitative Social Science Scholar</i>, August 2018 - May 2022</li> <li>• <i>Dean's List: High Honors</i>, December 2018 - May 2022</li> </ul> <p><i>Awards</i></p> <ul style="list-style-type: none"> <li>• <i>Small Undergraduate Research Grant (SURG)</i> for "Statistical Inference of On-line Radicalization in Extremist Communities", Carnegie Mellon University, June 2021</li> <li>• <i>Dietrich Senior Honors Research Fellowship</i> for "Autoregressive Models of On-line Addiction", Dietrich College, Carnegie Mellon University, May 2021</li> <li>• <i>First Place: Statistics &amp; Data Science Research Showcase</i>, for "Tracking Political Sentiment on Cold War China in Congressional Speeches", Carnegie Mellon University, May 2021</li> </ul>	

- *Summer Undergraduate Research Fellowship (SURF)*, for “Empirical Test of the Dual Accumulator Model”, Carnegie Mellon University, June 2020
- *Second Place: 15-112 Term Project Showcase* for “ThereMyn: Motion-Controlled Monophonic Synthesizer”, School of Computer Science, Carnegie Mellon University, April 2019

#### *Scholarships*

- National Science Foundation Graduate Research Fellowship, honorary mention, Spring 2022
- *Paul Mellon Memorial Presidential Scholarship* (merit-based), August 2018 - Present

## SKILLS

#### *Programming Languages and Packages*

- Python (Pytorch, Tensorflow, Scikit-Learn, PySpark, CVXPY), R (dplyr, tscount, zoo), C, Matlab, SQL (postgres, MySQL), Stan, Git, Shell, Max/MSP/Jitter

#### *Other Skills*

- AWS (S3, EC2, EMR), Microsoft Azure, Docker, Agile, Jira, Grafana, Ableton Live

## EXTERNAL ACTIVITIES

*Statistics Department Student Representative* Spring 2022 - Present  
[Dietrich College Council](#), Carnegie Mellon University, Pittsburgh, PA

- Took part in monthly council meetings to deliberate on proposals for small-to-large scale changes to Dietrich curricula and other college activities

*Professional Event Coordinator* Spring 2021 - Present  
 American Statistical Association, Carnegie Mellon University, Pittsburgh, PA

- Coordinated multi-part speaker series featuring both faculty and external researchers
- Facilitated peer-mentorship program within the Statistics environment for future course planning

*Staff Writer* Fall 2020 - Present  
[The Triple Helix](#), Carnegie Mellon University, Pittsburgh, PA

- Wrote journal articles on wide-scale statistical literacy and societal impacts of misreporting experimental results

*Performer and Composer* Spring 2019 - Spring 2020  
[Exploded Ensemble](#), Carnegie Mellon University, Pittsburgh, PA

- Designed large-scale Max/MSP programs for multimedia interactive performances
- Composed electro-acoustic pieces for mixed instrumentation ensembles

*Active Member* Fall 2018 - Present  
[Hillel Jewish Student Association](#), Carnegie Mellon University, Pittsburgh, PA

- Participated in multiple programs ranging from events to celebrate Jewish holidays, commemorating the victims of the Tree of Life Shooting, and brining the Jewish community at CMU closer together as a whole.
